Atividade Prática: Conexão com MySQL em Máquina Virtual

Nome : Marcus Vinicius Silva Alcantara 0126094

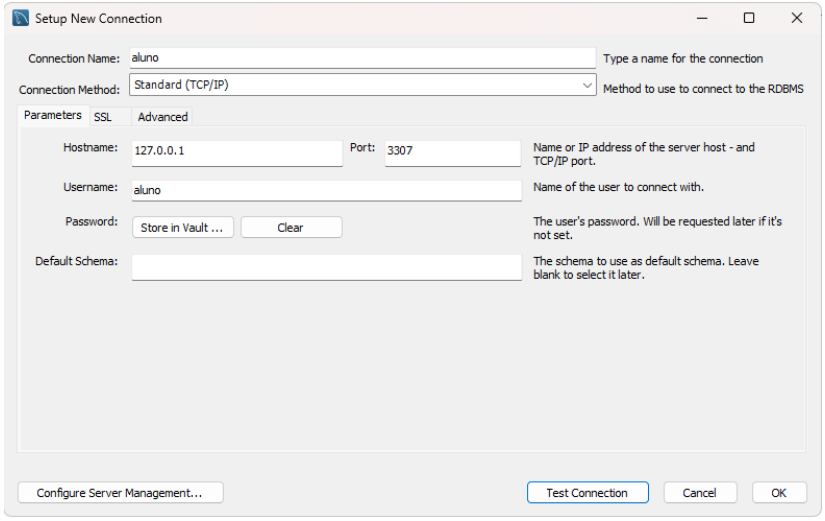

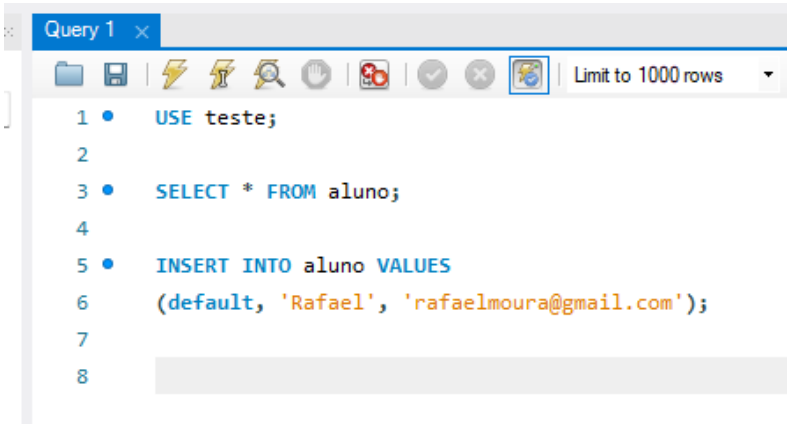

```
mysql> select * from aluno;
+---------+--------+----------------------+
| idALuno | nome   | email                |
+---------+--------+----------------------+
|       1 | Marcus | marcusvsa06@gmail.com |
+---------+--------+----------------------+
1 row in set (0.00 sec)

mysql> insert into aluno values
    -> (default, 'Renan', 'renansantos@gmail.com')
    -> ;
Query OK, 1 row affected (0.00 sec)

mysql> select * from aluno;
+---------+--------+----------------------+
| idALuno | nome   | email                |
+---------+--------+----------------------+
|       1 | Marcus | marcusvsa06@gmail.com |
|       2 | Renan  | renansantos@gmail.com |
+---------+--------+----------------------+
2 rows in set (0.00 sec)
```

```
mysql> select * from aluno;
+---------+--------+----------------------+
| idALuno | nome   | email                |
+---------+--------+----------------------+
|       1 | Marcus | marcusvsa06@gmail.com |
|       2 | Renan  | renansantos@gmail.com |
|       3 | Rafael | rafaelmoura@gmail.com |
+---------+--------+----------------------+
3 rows in set (0,00 sec)
```
